### LEPANTO CONSOLIDATED MINING COMPANY

NOTES TO FINANCIAL STATEMENTS AS OF JUNE 30, 2020 and DECEMBER 31, 2019

### Note 1 - General information

Lepanto Consolidated Mining Company (parent company) was incorporated in the Philippines and registered with the Securities and Exchange Commission (SEC) on September 8, 1936 primarily to engage in the exploration and mining of gold, silver, copper, lead, zinc and all kinds of ores, metals, minerals, oil, gas and coal and their related by-products. On January 29, 1985, the SEC approved the extension of the parent company's corporate term for another fifty (50) years after the expiration of its original term on September 8, 1986.

The Parent company's shares are listed and traded in the Philippine Stock Exchange.

On January 14, 1997, the Parent Company was registered with the Board of Investments (BOI) under Executive Order No. 226 as a new export producer of gold bullion on a preferred non-pioneer status. This registration entitled the Parent Company to a four (4) year income tax holiday (ITH), which can be further extended for another three (3) years subject to compliance with certain conditions, and lower tariff rates on acquisition of capital equipment. It is required to maintain a base equity of at least 25% as one of the conditions of the registration.

On April 1, 1997, the Parent company started the commercial operations of its Victoria Project gold mine. Consequently, in October 1997, the parent company temporarily ceased operating its copper concentrate roasting plant facilities in Isabel, Leyte for an indefinite period. The Roasting plant facility was also registered with the Philippine Economic Zone Authority (PEZA) on December 17, 1985 pursuant to the provisions of Presidential Decree No. 66, as amended, and Executive Order No. 567 as a zone export enterprise to operate a roasting plant for the manufacture of copper calcine at the Isabel Special Export Economic Processing Zone.

On March 30, 2000, the Parent Company registered its copper flotation with the BOI as a new producer of copper concentrates on a preferred non-pioneer status. This registration entitled the Parent Company to a four (4) year ITH, subject to compliance with certain conditions, simplified customs procedures, additional deduction for labor expense, and unrestricted use of consigned equipment for a period of ten (10) years. It is required to maintain a base equity of at least 25% as one of the conditions of the registration. The Copper Flotation project was suspended at the end of 2001; BOI registration was cancelled on July 11, 2006.

On January 5, 2004, the Parent Company was registered with the BOI under Executive Order No. 226 as new export producer of gold bullion on a non-pioneer status, for its Victoria II (renamed Teresa) Project, located also in Mankayan, Benguet, Philippines. This registration entitles the Parent Company to ITH with the same incentives that were granted on their registration with the BOI on January 14, 1997. The Teresa Project commenced its commercial operations in April 2004.

On November 21, 2006, the Parent Company was registered with the BOI under Executive Order No. 226 as new export producer of copper-gold concentrate on a non-pioneer status for its copper-gold flotation project located also in Mankayan,

Benguet, Philippines. This registration entitles the Company to ITH for four (4) years, which can be further extended for another three (3) years subject to compliance with certain conditions, and duty-free importation of equipment, spare parts and accessories for five (5) years. The copper-gold flotation operations were suspended in 2009 in view of the sharp decline in copper prices, of which the BOI was notified. In August 2017, the Company notified the BOI that it will resume copper-gold flotation operations in the fourth quarter of 2017.

The registrations mentioned above enable the Parent Company and its subsidiaries to avail of the rights, privileges, and incentives granted to all registered enterprises.

The Parent Company currently operates the Victoria Project from which it produces gold dore. It commenced commercial operation of the Copper-Gold Project, producing copper-gold concentrate, in October 2017.

The Company has two Mineral Production Sharing Agreements (MPSA), referred to as MPSA No. 001-090-CAR and MPSA No. 151-2000-CAR, both in Mankayan, Benguet.

MPSA No. 001-90-CAR was jointly executed by the Company and subsidiary Far Southeast Gold Resources, Inc. (FSGRI) on March 3, 1990 with the Philippine Government, through the Department of Environment and Natural Resources. The MPSA has a term of 25 years, renewable for another term not exceeding 25 years under the same terms and conditions. The Company and FSGRI filed an application for its renewal on June 4, 2014. The application for renewal of the mining rights are still in pending approval as at December 31, 2019.

The Parent Company has its principal office at the 21st Floor, 8747 Lepanto Building, Paseo de Roxas, Makati City.

### Note 2 - Compliance with Generally Accepted Accounting Principles

The consolidated financial statements of Lepanto Consolidated Mining Company Group (the Group) have been prepared in accordance with the accounting principles generally accepted in the Philippines. The Group prepared its consolidated financial statements in accordance with Philippine Financial Reporting Standards (PFRS) except for the exemption from the fair value requirement of the Philippine Accounting Standards (PAS) 39, Financial Instruments: Recognition and Measurement, on long term commodity hedging contracts entered into by the parent company and outstanding as of January 1, 2005, which was permitted by the SEC.

The accounting policies adopted in the preparation of the financial statements are consistent with the most recent annual financial statements.

The Parent Company's trade receivables arise from its shipments of gold, silver and concentrate to refinery and smelter customer based on contract/agreement.

Trade and nontrade are non-interest bearing and are generally collectible on demand. Nontrade receivables comprise mainly of receivables from subcontractors and other third parties, while receivables from officers and employees pertain to cash advances made by employees for the operations of the Group.

Receivables from officers and employees are non-interest bearing and are generally subject to liquidation. Unliquidated receivables from officers and employees are collectible on demand or considered as salary deduction.

### Note 5 - Inventories

	06/30/2020	12/31/2019
Parts and supplies	531,919	484,970
Mine Products	3,455	39,507
	535,374	524,477

Parts and supplies include materials and supplies stored in Metro Manila, Bulacan, Mankayan, and Leyte. The decrease in the amount of P10.9 million represents withdrawals of stocks used in operations.

Mine products inventory include copper concentrates stored in a concentrate bodega owned by SSI located at its compound in Poro, San Fernando City, La Union.

### Note 6 – Advances to suppliers and contractors

Advances to suppliers and contractors are non-financial assets arising from advanced payments made to suppliers and contractors before goods and services have been received or rendered. These are classified as current since these are expected to be offset against future short-term billings and are recognized in the books at the amounts initially paid.

Advances to suppliers and contractors are attributable to contracts generally requiring advance payments. Amounts deposited will be applied as part of the full payment of the contract price upon completion of the contract or consummation of transactions and receipt of all related documents.

### Note 7 - Other current assets

	06/30/2020	12/31/2019
Input VAT	760,886	772,658

Prepayments	108,923	160,717
Others	9,432	2,611
	881,751	938,434

By virtue of Revenue Memorandum Order 9-2000 dated March 29, 2000, all sales of goods, property and services made by a Value Added Tax (VAT) - registered person to the Parent Company, being a one hundred percent (100%) exporter, are automatically zero-rated for VAT purposes effective August 8, 2001.

Input VAT represents VAT paid on purchases of applicable goods and services, net of output VAT, which can be claimed for refund or recovered as tax credit against certain future tax liability of the Company upon approval by the Philippine Bureau of Internal Revenue (BIR) and/or the Philippine Bureau of Customs.

Deferred costs represent cost of withdrawn tubings to be used in drilling operations. Aforesaid costs are amortized based on meters drilled.

Prepaid expenses include advance payments for taxes, insurance, rent and other services.

### Note 8 - Trade and other payables

Composed of trade, due to related parties, accrued expenses and other liabilities, trust receipts, employee related expenses, unclaimed dividends, payables to regulatory authorities, accrued utilities and accrued production tax.

Nature, terms and conditions of the Group's liabilities:

- Trade payables include import and local purchases of equipment and inventories such as various parts and supplies used in the operations of the Group. These are non-interest bearing and are normally settled on sixty (60) days' terms.
- Accrued expenses and other liabilities are noninterest-bearing and are normally settled on a 30 to sixty (60) days' term. These include other operating expenses that are payable to various suppliers and contractors.
- Trust receipts refer to arrangements of the Group with banks related to its importations of inventories and various equipment which are interest bearing and have an average term of ninety (90) to one hundred twenty (120) days.
- Employee related expenses include unclaimed wages, accrued vacation and sick leave and accrued payroll. These are non-interest bearing and are payable in thirty (30) days' term.
- Unclaimed dividends pertain to unpaid cash dividends declared by the Parent Company to its stockholders. These are non-interest bearing and are payable upon demand of the payee.
- Payable to regulatory agencies include withholding taxes and other government contributions related to employees of the Group. These are non-interest bearing and are normally remitted within ten (10) days from the close of each month.
- Accrued utilities pertain to unpaid billings for power, communication, light and water charges. These are non-interest bearing and are normally settled within thirty (30) to ninety (90) days.

 Accrued production taxes pertain to excise taxes on metal sales. These are noninterest bearing and are settled within fifteen (15) days after the end of each quarter.

### Note 9 - Business Segments

The Group derives revenue from the following main operating business segments:

Mining activities –This segment engages in exploration and mining of gold, silver, copper, lead, zinc and all kinds of ores, metals, minerals, oil, gas, and coal and related by-products.

Investment activities – This segment derives its income as a general agent, broker or factor of any insurance company or as a commercial broker, agent or factor of any person, partnership, corporation or association engaged in any lawful business, industry or enterprise. Income is derived from commissions, which represent income on non-life insurance policies underwritten by a subsidiary for certain principals.

Hauling and Leasing activities – This segment engages in handling all kinds of material, products and supplies in bulk and maintaining and operating terminal facilities such pier and warehouses. Income is derived mainly from hauling fees and warehouse rentals.

Insurance activities – This segment derives its revenues from premiums from short duration insurance contracts, which are recognized over a period of the contracts using the 24<sup>th</sup> month method.

Drilling activities – This segment derives its income from drilling services to its related and outside parties.

Manufacturing and Trading – This segment derives its revenue from manufacturing, distributing, selling and buying machinery and equipment, general merchandise and articles related to diamond core drilling industry.

The assets, liabilities and results of the business segments of the LCMC Group for the second quarter of the year 2020 and 2019 are as follow:

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULT OF OPERATIONS

As of June 30, 2020

Early this year, in view of the rising gold and silver prices, Lepanto decided to refocus on gold/silver dore production and temporarily suspend copper production. We have thus concentrated our attention on the Victoria and Teresa deposits.

Consolidated revenues for the second quarter of 2020 amounted to P273.8 million compared with P521.3 million in 2019. Consolidated net loss increased to P242.6 million versus P220.3 million the previous year.

For the first half of the year, consolidated revenues amounted to P1,116.6 million last year versus P725.6 million this year. Net loss totaled P457.0 million compared with P378.3 million in 2018.

### **Mining Operations**

### April - June 2020 versus April - June 2019

Dore production was 3,228 ounces of gold and 9,375 ounces of silver versus last year's dore production of 1,882.4 ounces and 334.8 ounces, respectively. There were no copper concentrates produced this quarter while last year, there were 2,536 DMT of copper concentrates containing 5,152.4 ounces of gold, 22,563.3 of silver, and 693,704 lbs of copper. The lower metal production was due to disruptions in operations in connection with the Enhanced Community Quarantine (ECQ) that started in March 2020. Specifically, the mine had to operate on a skeletal workforce and the lockdown protocols have affected the delivery of critical supplies to the mine.

Metal sales went down by P260.2 million to P260.8 million due to the suspension of copper production and the ECQ as discussed above. Net loss totaled P235.0 million compared with last year's P210.0 million.

Gold price averaged US\$1,737.3/oz. versus US\$1,303.8/oz. while silver price averaged US\$17.37/oz. versus US\$14.86/oz. the preceding year. The P/US\$ exchange rate averaged P50.40/US\$1 compared with P52.03/US\$1 last year.

Total cost and expenses decreased by 33% to P487.8 million as the tonnage milled decreased to 97,762 tonnes from 165,691 tonnes in 2019. Milling cost went down from P116.0 million to P83.3 million; depletion and depreciation decreased by P119.7 million to P97.8 million.

Production tax decreased by 49% to P10.4 million due to lower production. Finance cost decreased to P2.7 million from P3.5 last year due to repayment of loans. Other income decreased to P1.6 million from P26.3 million the previous year due to last year's gain on sale of financial instruments.

A total of 2,173 DMT copper-gold concentrate containing 618,442 lbs. of copper, 2,744 ounces of gold, and 10,827 ounces of silver was produced in 2020 compared with last year's 5,330 DMT copper-gold concentrate containing 1,638,243 lbs. of copper, 11,845 ounces of gold, and 49,764 ounces of silver. Copper-gold concentrate production was suspended last March 2020.

The dore production contained 5,117 ounces of gold and 9,906 ounces of silver this year as compared with 2,906 ounces of gold and 440 ounces of silver last year.

Metal sales went down by 39% from P1,116.1 million to P683.0 due to the suspension of copper concentrate production and the ECQ. Net loss increased by 29% from P351.8 million to 454.6 million this year.

Gold price averaged US\$1,630.6/oz. versus US\$1,310.5/oz. while silver price averaged US\$17.41/oz. versus US\$15.41/oz. the previous year. Copper price averaged \$2.71/lb compared with \$2.79/lb last year. The P/US\$ exchange rate averaged P50.66/US\$1 compared with P52.21/US\$1 last year.

Total cost and expenses decreased by 25% to P1,105.4 million from P1,468.3 million last year due to the suspension of copper production and the lower milling tonnage. Mining development cost increased by P74.5 million to P110.2 million mainly due to a change in accounting treatment.

Production tax decreased by 42% to P26.2 million due to lower metal production. Finance cost dropped from P7.3 million to P5.4 million as short-term loans were partly settled early this year. Other income decreased from P26.5 million to P3.6 million. Last year's other income came from the sale of an available for sale investment.

### BALANCE SHEET MOVEMENTS

### June 30, 2020 versus December 31, 2019

Cash and cash equivalents decreased by P35.2 million on account of disbursements for operations and repayment of loans. Receivables increased by P11.4 million representing the unpaid portion of a dore shipment. The decrease in other current assets of P56 million was due the amortization of development cost and decrease in creditable input vat.

Trade payables increased by P422.7 million while short term borrowings decreased by P14.0 due to repayment of loans.

Deficit increased by P22.3 million to P242.6 million representing the net loss from operations during the period.

### CAPITAL EXPENDITURES

Capital expenditures for the quarter totaled P59.0 million, of which P49.2 million went to exploration; P0.1 million to machinery and equipment; P3.6 million to mine development; and, P6.0 million to maintenance of tailings storage facility 5A.

For the first semester, total capital expenditures amounted to P121.5 million; of which P68.5 million went to exploration; P36.3 million to machinery and equipment; P9.3 million to mine development; and P7.3 million to maintenance of tailings storage facility 5A.

### **OUTLOOK FOR THE YEAR**

Given the continued optimism on the prices of precious metals, we are prioritizing the development of the remaining reserve of the Victoria to increase its contribution to our production and working on a drilling program to delineate its extension.

### **SUBSIDIARIES**

The key performance indicator used for the subsidiaries is net income for the first half of the year versus the same period the previous year.

Diamond Drilling Corporation of the Philippines reported a net income of P0.50 million compared with P30.2 million net loss last year. Lepanto Investment and Development Corporation reported a net loss of P105.5 thousand compared with last year's net loss of P86.4 thousand. Shipside, Incorporated registered a net income of P2.4 million against last year's net income of P6.8 million.

### \* - KEY PERFORMANCE INDICATORS-LCMC

Tonnes Milled which indicate the amount of ore taken for processing, Milled Head is the amount of gold per ton milled and Gold production which is the final product of the operations. Metal sales, Cost and Expenses and Net Income round up the review process on how the company is performing vis-à-vis the performance of the same period last year. Average Gold price for the period adds another parameter that needs watching notwithstanding that the company has no direct influence on its movement.

### LEPANTO CONSOLIDATED MINING COMPANY Impact of Current Global Financial Condition

### Credit Risk

Credit risk refers to the potential loss arising from any failure by counterparties to fulfill their obligations, as and when they fall due. It is inherent to the business as potential losses may arise due to the failure of its customers and counterparties to fulfill their obligations on maturity dates or due to adverse market conditions.

All gold exports when priced are practically settled on cash basis. Parent Company's existing contracts with gold refineries allow for advances of 98% of payable metals paid in two (2) working days from pricing. Full settlement is normally received within three (3) working days. For copper concentrates, Parent Company's existing contracts with smelters allow for advances of 90% of payable metals paid within two (2) to five (5) working days from pricing. Full settlement, however, takes three (3) to six (6) months..

The Parent Company enters into marketing contracts only with refineries and smelters of established international repute. Since the Parent Company became a primary gold and copper concentrates producer, it has entered into exclusive marketing contracts with Heraeus for gold and Trafigura Beheer BV and Shanghang County Jinshan Trading Co., Ltd. for copper concentrates.

The Group has a significant concentration of credit risk in relation to its trade receivables from Hereaus. Such risk is managed by securing the specific approval of the BOD before entering into contracts with refineries and by assessing the creditworthiness of such refineries.

The credit risk arising from these financial assets arises from default of the counterparty, with maximum exposure equal to the carrying amount of these instruments. The Group's gross maximum exposure to credit risk is equivalent to the carrying values since there are no collateral agreements for these financial assets.

There is no significant exposure to credit risk.

### Market Risk

Market risk is the risk of loss to future earnings, to fair values or to future cash flows that may result from changes in the price of a financial instrument. The value of a financial instrument may change as a result of changes in foreign currency exchanges rates, interest rates, equity prices and other market changes.

### Foreign Exchange Risk

Foreign exchange risk is the risk to earnings or capital arising from changes in foreign exchange rates. The Group takes on exposure to effects of fluctuations in the prevailing foreign currency exchange rates on its consolidated financial statements and consolidated statements of cash flows.

The Group follows a policy to manage its currency risk by closely monitoring its cash flow position and by providing forecast on all other exposures in non-Philippine Peso currencies.

The Group sells its product to the interstates national market. All metal sales are denominated in US\$. Dollar conversion of metal sales to Philippine Peso is based on the prevailing exchange rate at the time of sale. The Group also has purchase transactions denominated in AU\$.

Foreign currency-denominated liabilities of Parent Company totaled US\$2.8 million at the end of first quarter this year. Same amount was revalued at the start of the year based on an exchange rate of P50.64/US\$. No revaluation of said liabilities during the current year. Foreign exchange gain or losses due to the movement of the Philippine peso vis a vis the US\$ are recognized at year-end on outstanding US\$ denominated assets and liabilities. The gain/(loss) on Philippine peso appreciation/(depreciation) against the dollar as a result of settlement of liabilities is reflected as foreign exchange gain/(loss) in the financial statements.

As of the end of the quarter, Far Southeast Gold Resources, Inc., a 60%-owned subsidiary, had total foreign currency-denominated liabilities of US\$145.9 million. Said foreign currency liabilities are converted to Philippine peso at the time of their incurrence. No revaluation of said liabilities is done on account of the appreciation/depreciation of the Philippine peso; hence, no foreign exchange gain/loss is recognized for the quarter ended. Settlement of these obligations will be at their recorded value based on the agreement with the creditor/investor.

### Interest Rate Risk

The Group's exposure to the risk for changes in market interest rate relates primarily to its long-term borrowings with floating interest rates. The Group regularly monitors its exposure to interest rates movements. Management believes that cash generated from operations is sufficient to pay for its obligations under the loan agreements as they fall due.

### Liquidity Risk

Liquidity risk arises from the possibility that the Group may encounter difficulties in raising funds to meet maturing obligations from financial instruments or that a market for derivatives may not exist in some circumstances.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of advances from related parties. The Group considers its available funds and its liquidity in managing its long-term financial requirements. For its short-term funding, the Group's policy is to ensure that there are sufficient capital inflows to match repayments of short-term debt.

As part of its liquidity risk management, the Group regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund raising activities, in case any requirements arise. Fund raising activities may include bank loans and capital market issues. Accordingly, its loan maturity profile is regularly reviewed to ensure availability of funding through an adequate amount of credit facilities with financial institutions.

#### Fair Values

PFRS defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair values are obtained from quoted market prices, discounted cash flow models and option pricing models, as appropriate.

Cash and Cash Equivalents, Trade Receivables and Trade and Other Payables
The carrying amounts of cash and cash equivalents, receivables and trade and other
payables, which are all subject to normal trade credit terms and are short-term in
nature, approximate their fair values.

### AFS Financial Assets

Fair values of investments are estimated by reference to their quoted market price at the end of the reporting period. Unquoted equity securities are carried at cost, net of impairment in value, since fair value of these AFS securities cannot be reliably determined as these securities are not listed and have no available bid price.

### Loans Payable and Borrowings

Carrying value of the loans payable and borrowings as at end of the quarter approximate their fair values. Borrowings from local banks are all clean loans with interest rates ranging from 5.0% to 7.0%.
